

Tell the Railroad what
you think about

healthcare

write it on the hard hat

Over 9,000 BMWED members responded to the National Negotiations Survey. The majority said **healthcare was their #1 issue.**

The Railroads tell us in Negotiations that they want our healthcare to be more “mainstream.” **“Mainstream” means more like other Americans,**

with **much higher costs** for us and our families.

We say NO! The Railroads are billion dollar companies, and they can pay to keep our healthcare affordable.

Stay tuned – plans for action on healthcare will be coming your way soon.
