

BNSF & CEO Carl Ice – Profitable and Rich

So why are they asking us to pay more for our Healthcare?

We work hard for a very profitable corporation.

In 2015 BNSF racked up **19% in profits.**

In the first half of 2016, **profits declined to 16.6%** - which is still way more than most American corporations make.

Despite BNSF's great profitability, management wants us to pay a lot more for our Healthcare. In negotiations they're telling our Union leadership that they want us to be more "Mainstream" in what we pay. Given what BNSF pays its executives, this just isn't fair. It's corporate greed.

If BNSF has the money to pay CEO Ice and other executives huge salaries and bonuses, they can afford to keep our Healthcare the way it is. We need to continue to take action to show Railroad executives like Ice that we're serious about maintaining our Healthcare benefits.
