

DOT - Hazardous Materials Instructors Training (HMIT)

After a considerable delay we are happy to announce that funding for the DOT trainer program has been awarded.

The Rail Workers Hazardous Materials Training Program is building a nationwide pool of peer instructors to deliver hazmat training. This DOT-funded train-the-trainer course provides regional peer trainers with the skills and knowledge necessary to deliver this awareness level hazmat training at their job-sites, union meetings and in their communities. Two courses will be offered this summer on the NLC campus in Silver Spring, MD. We realize many of the members wanting to attend this training have not been able to afford the additional time away from work, home and family. **To accommodate the needs of these workers the July 22-27, 2012 course offering will include an eight hour awareness course on the first scheduled meeting date.** For the July 16-21, 2012 the completion of an 8 hour Hazardous Materials awareness course, hazmat awareness online or the Chemical Emergency Response in the 4 or 5 day format offered by this program, will be a prerequisite to attend.

If you want to educate and protect yourself and your co-workers, sign up for the DOT HMIT train the trainer course and **BECOME A REGIONAL PEER TRAINER.**

Visit our website at: <http://www.hazmatgmc.org> and sign up today to become a part of this exciting program. Contact hajuga@nlc.edu for questions regarding pre-requisites.
