

# ***Norfolk Southern CEO James Squires:*** **STOP FEEDING YOUR WORKERS SPOILED FOOD**

**Please join us in demanding that NS CEO Squires provide clean, fresh food to his workers.**

Norfolk Southern is a massively profitable railroad corporation. It's CEO, James Squires, made \$11.3 million in 2018.

Despite record profitability, CEO Squires shows his track maintenance workers great disrespect by providing moldy fruit and other food well beyond its expiration date. These workers toil in remote areas far from restaurants or supermarkets, and actually pay NS to provide them food.
